

HOCKEY MASK TEMPLATE:

Use this mask for your pink brickwall banner. You can download this template from octobersaves.org on the resource page or copy this sheet. Cut out enough masks for the number of participating goalies in your club. Put your participating goalies names on a mask (1 per mask.) Cut out the mask and stick the mask on the appropriate fundraising level each week. For example: If your goalie has raised \$100 on week 1 then stick the mask near the \$100 mark on the banner. Move the masks each week according to their pledge totals that week. Feel free to laminate or decorate the masks with your club logo. Have fun with it!
